

**MISSION:** Breakthrough Coalition is a network of service providers and others concerned with senior issues, committed to enhancing the quality of life for older adults within the St. Louis metropolitan area through education, advocacy and networking.

Breakthrough Coalition has an enduring history of providing support to older adults. Formed in 1991, the coalition began with a handful of public agencies wanting to simplify the system of care and support for older adults. Today, Breakthrough Coalition annually welcomes more than 300 agencies and individuals, public and private, who help further its mission.

Participants and leaders of Breakthrough Coalition volunteer their time to improve the quality of life of older adults in our communities. Comprised of private companies, nonprofit agencies, and academic institutions, Breakthrough members meet every other month to educate each other about senior-focused resources and timely issues, as well as to network.

Meetings are open to individuals and organizations who share the Breakthrough mission. New members always are welcome. There are no fees to attend. Membership is determined by attendance at the bimonthly meetings. Participation in one or more of the Breakthrough Coalition committees is encouraged. Committees include Advocacy, Education, and Networking.

General membership meetings are held on the first Tuesday of even-numbered months at the Maryland Heights Centre (2344 McKelvey) in St. Louis County. Informal networking begins at 8 a.m., with the business meeting beginning promptly at 8:30 a.m. Meetings conclude at approximately 10 a.m., and consist of member introductions, committee and business updates, resource sharing, and either an educational presentation or an organized networking event. Attendees are invited to bring informational flyers or brochures to share with colleagues.
